- **How to Make 100 bucks a day on Fiverr in 4 steps...** - Sent at 12/17/15 08:55 AM EST

I was reading recently that fiverr.com has received over 100 million dollars in backing as of 2015. It's amazing. Clearly I am not the ONLY one who believes in this company.

Why wouldn't people like this platform?

[Just ask Huw Hughes who is now earning over a 100 bucks a day using his 5rr Enigma Strategies]

It has so much potential. The idea that I don't have to seek out freelancers who are qualified to do what I want and TELL them what I want...but instead just pick something that they already offer?

Kind of like ordering a #2 combo meal at McDonald's. It's low stress, low fuss, and easy as hell to do.

I love fiverr. I use it all the time in my business.

Quickly I want to tell you about a simple gig on fiver that you can do to start making money very quickly.

This is perfect for someone who would like to make money online but has no idea what to do and really isn't sure if they are good at anything online to begin with. If that's you...then you are going to love this.

Step 1: set up gigs on fiverr where you offer to write emails for people. Niche down with these email gigs.

Step 2: get an account at bigproductstore and gain access to 100's of private label rights email swipe files that you can do whatever you want with. (if you don't have money for bigproductstore...keep reading!

Step 3: Make bank. When someone orders some emails from you, just use the PLR emails you have and adapt a word here or there to fit the gig.

Step 4: Utilize the upsell. The true way to make money on fiverr is to have lots of gig extras that your customer can order. They add up fast to a lot of extra money in your bank account.

Now look...what I just gave you was quite conceptual. It will work but there are some details that you are going to have to figure out. If you want the STEP BY STEP, NO BULLSHIT, NO START UP COST guide to this type of fiverr income, you owe it to yourself to skip the bigproductstore method and jump right to:

Huw Hughes's 5rr Enigma

He teaches you two method's in this course that will have you earning over a 100 bucks a day very quickly. 5rr Enigma can be gone through in about an hour and you can be implementing the thing as you are going through it.

Yes that's right...you can be setting up you gigs while you are going through the course. That is how easy he makes this stuff. He covers everything from what gigs to put up there to what gig extra's to put up there.

It gives it to you in easy to digest video modules as well as an ebook version for those who like to read.

He also includes nice and easy templates to keep you straight, and some great bonuses to further speed up your success.

I don't do fiverr personally, but this strategy is so easy to set up that I am seriously thinking about just doing it. It takes no time flat to set up and it will probably be earning me an extra 100 bucks a day with minimal effort. No real reason not to.

So if you are like me and know when you have genuine opportunity starting you in the face...understand something...we are about to hit 2016. Take...Your...Shot. Try this damn thing! If you never try...you will never know.

As always, thanks for reading, and I'll see you in the next one!

Alright you got me. I am a fan of time travel movies and Back to the Future is one of my favorites.

[5rr Enigma is now going for about 16 bucks but if you X out of the sales page you will see how Huw is a fan of time travel movies as well]

But honestly...

Haven't you ever wondered what it would be like to be able to go back in time and take advantage of something that you now knew was awesome? If only you would have took advantage of it THEN right???

Well...I have a DeLorean for you...sort of.

Last week I started promoting Huw Hughes's 5rr Enigma and it started selling at around 6 bucks. A lot of you took advantage of that and I commend you for it. It's a great course and very quickly the price started to climb.

It has now sold over 1,000 copies and has earned Warrior Plus's coveted Deal of the Week Status.

If you want 5rr Enigma now it would cost you about 16 BUCKS, that's more than TWICE what it started out at!!!

or will it?

Here's the thing. If you X out of the sales page on 5rr Enigma you will be presented with a POP UP that is going to offer you 50% off! Reducing the price of this course BACK TO WHERE IT STARTED!!! A whopping \$6.95.

...and you thought you would never get a second chance.

Sometimes even people like us can get lucky man!

Anyway, if you don't know what 5rr Enigma is and I am confusing you I have put a little product profile below for you:

Name of Product: 5rr Enigma

What will it do for you?

Get you making \$80 to \$100 a day using 2 very specific fiverr gigs

What is it?

A 10 module video course that will take you about an hour to get through. Also it comes with an ebook version.

Is it actionable: yes, you can set your system up while you follow the training.

Can ANYONE Do THIS?

this is for anyone. You do not need an special skills to make this happen.

How much is it?

As of right now it is about \$16.00 bucks but if you try to X out of the page it will give you 50% off.

Does this thing work?

Huw Hughes is using these same strategies right now on fiverr to make a FULL TIME living. They work for him. I don't see any reason why they can't work for you.

Alright that is all I have for you guys right now. This is my last day for promotion on this sweet 5rr course. Good luck to you all and have a great day! I'll see you next time!
