

# HOW TO GET REVIEW COPIES OF PRODUCTS AS AN AFFILIATE

1. Request to Affiliate with Product on Platform (leave contact email and facebook profile link in message to vendor)
2. Friend Request Product Vendor on Facebook
3. Contact Product Vendor by DM on facebook and let them know you are a fan of their work and a fellow product vendor. Let them know your name on the platform and tell them you have already requested permission to affiliate with (use product name) and ask if you can have a review copy.
4. Find a recent post that they have posted on facebook and comment on it with this: “Hey (insert product vendor name), respect your work, sent you a message.”

That's it. This should get you review copies of most product you are interested in. It gets easier once you have put out a few pieces of paid content.

**Remember, do not promote products that you haven't seen. If you can't get a review copy for some reason but still want to promote, just bite the bullet and buy the product. It's an investment.**
